

SERVICE APPROACH

The Open Minds Acquired Brain Injury (ABI) Support Service is a specialist Unit delivering community based rehabilitation and participation programs to meet the complex needs of individuals with an ABI.

Individual Support Plans are developed with the client and their family and personal and professional supports to provide an innovative and flexible program to promote positive mental, emotional and physical outcomes and achieve increased independence and social participation.

Open Minds works with and alongside insurers, allied health professionals, government bodies and legal representation to achieve the optimum result for the support needs of the client.

SERVICES

Lifestyle Support

Develops and implements community based lifestyle support programs to enhance daily living skills and promote independence.

Rehabilitation Support

Provides recovery and rehabilitation support programs alongside medical and allied health specialists.

Supported Accommodation

The ABI Support Service provides safe, supervised 24/7 accommodation with an emphasis on community participation.

REFERRALS

Referrals and requests for Service Quotation may be made to Open Minds via telephone, email or visiting the Open Minds website.
